

### Investment Objective

Menhaden Resource Efficiency PLC (the "Company") seeks to generate long-term shareholder returns, predominantly in the form of capital growth, by investing in businesses and opportunities that are demonstrably delivering or benefiting significantly, from the efficient use of energy and resources, irrespective of their size, location or stage of development. To reflect its non-benchmarked total return investment strategy, the Company uses RPI+3% as its primary long term financial performance comparator. In addition to this absolute return performance measure, the Company also uses a range of specialist, sectoral and peer group benchmarks to assess its relative performance.

### Ten Largest Holdings as at 31 July 2024 (% of gross assets)

Name	Investment Theme	Total
Alphabet	Digitalisation	12.2
Safran	Industrial Emissions Reduction	10.8
Avantus	Clean Energy	10.1
Airbus	Sustainable Infrastructure & Transportation	10.0
Microsoft	Digitalisation	9.2
VINCI	Sustainable Infrastructure & Transportation	7.8
TCI Real Estate Partners IV	Sustainable Infrastructure & Transportation	7.0
Canadian Pacific Kansas City	Sustainable Infrastructure & Transportation	6.7
Canadian National Railway	Sustainable Infrastructure & Transportation	5.4
Amazon	Digitalisation	4.7
<b>Total</b>		<b>83.9</b>

Menhaden Resource Efficiency PLC conducts its affairs so that its shares can be recommended by independent financial advisers ("IFAs") to retail private investors. The shares are excluded from the Financial Conduct Authority's ("FCA's") restrictions which apply to non-mainstream investment products because they are shares in a UK-listed investment trust.

### Commentary

During July, the Company's net asset value ('NAV') per share was down 0.8%, the share price was up 0.5%, while the RPI+3% was up 0.5%.

Our public equities portfolio decreased 0.9% over the month, reducing our NAV by 0.7%.

**Airbus** and **Vinci** increased 9% and 7% in EUR, adding 0.8% and 0.5% to our NAV respectively. Following the guidance downgrade in late June, Airbus reported quarterly results ahead of expectations and the management team outlined several actions underway to mitigate and resolve the current supply chain issues. Vinci's financial results were negatively affected by the imposition of the new French motorway tax. The company has acquired stakes in Edinburgh and Budapest airports and the Northwest Parkway toll road concession in Denver this year. These are high quality assets which extend the average concession life of the company's infrastructure portfolio.

**Microsoft** and **Alphabet** decreased 6% in USD, reducing our NAV by 0.8% and 1.0% respectively. Both companies reported good financial results, although Microsoft's Azure business did grow slower than expected. They continue to invest in infrastructure to support artificial intelligence, although there is some uncertainty over future returns on this spending. Whilst we believe overinvesting is a risk, we believe that these companies can slow spending if needed and then grow into the excess capacity. Following the month end, Google lost the antitrust case brought by the US Department of Justice concerning Google Search. Alphabet intends to appeal this ruling and a separate trial will be required to decide a remedy.

Within our private portfolio, we made another capital contribution (USD 0.6m) to the **TCI Real Estate Partners Fund IV**. This position represented 7.0% of NAV at the month end.

# Menhaden

### Investment Policy

The Company's investment objective is pursued through constructing a conviction-driven portfolio consisting primarily of direct listed and unlisted holdings across different asset classes and geographies. The Company invests, either directly or through external funds, in a portfolio that is comprised predominantly of a combination of listed equities and private equity investments. The flexibility to invest across asset classes affords the Company two main benefits: 1) It enables construction of a portfolio based on an assessment of market cycles; and 2) It enables investment in all opportunities which benefit from the investment theme. It is expected the portfolio will comprise approximately 15 to 30 positions.

The portfolio will be predominantly focused on investments in developed markets, though if opportunities that present an attractive risk and reward profile are available in emerging markets then these may also be pursued. While many of the companies forming the portfolio are headquartered in the UK, USA or Europe, it should be noted that many of those companies are global in nature so their reporting currency may not reflect their actual geographic or currency exposures. Subject to any applicable investment restrictions contained in the Listing Rules from time to time, the Company will not make an investment if it would cause a breach of any of the following limits at the point of investment: 1) no more than 20% of the Company's gross assets may be invested, directly or indirectly through external funds, in the securities of any single entity; and, 2) no more than 20% of the Company's gross assets may be invested in a single external fund.

---

### Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. Shares of the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it. For further information on the principal risks the Company is exposed to please refer to the Company's Annual Report or Investor Disclosure Document available at [www.menhaden.com](http://www.menhaden.com).

The Company currently deploys leverage using currency forwards. These are designed to partially protect/hedge the NAV from unfavourable movements in foreign exchange rates by reducing the Company's exposure to foreign currencies. The Company can borrow but does not currently.

### Target Market

The Company is suitable for investors seeking an investment that aims to deliver total returns over the longer term (at least five years), is compatible with the needs for retail clients, professional clients and eligible counterparties, and is eligible for all distribution channels.

The Company may not be suitable for investors who are concerned about short-term volatility and performance, have low or no risk tolerance or are looking for capital protection, who are seeking a guaranteed or regular income, or a predictable return profile. The Company does not offer capital protection.

### Value Assessment

Frostrow Capital LLP has conducted an annual Value Assessment on the Company in line with Financial Conduct Authority (FCA) rules set out in the Consumer Duty regulation. The Assessment focuses on the nature of the product, including benefits received and its quality, limitations that are part of the product, expected total costs to clients and target market considerations.

Within this, the assessment considers quality of services, performance of the Company (against both benchmark and peers), total fees (including management fees and entry and exit fees as applicable to the Company), and also considers whether vulnerable consumers are able to receive fair value from the product.

Frostrow Capital LLP concluded that the Company is providing value based on the above assessment.

### Important Information

Menhaden Resource Efficiency PLC (the Company) is a public limited company whose shares are premium listed on the London Stock Exchange (LSE) and is registered with HMRC as an investment trust.

The Company has an indeterminate life although shareholders consider and vote on the continuation of the Company every five years (the next such vote will be held in 2025).

The Company may, but does not currently, borrow to purchase investments. Borrowing could potentially magnify any gains or losses made by the Company.

This **financial promotion** is issued by Frostrow Capital LLP which is authorised and regulated by the Financial Conduct Authority ("FCA").
