

### Investment Objective

Menhaden Resource Efficiency PLC (the "Company") seeks to generate long-term shareholder returns, predominantly in the form of capital growth, by investing in businesses and opportunities that are demonstrably delivering or benefiting significantly, from the efficient use of energy and resources, irrespective of their size, location or stage of development. To reflect its non-benchmarked total return investment strategy, the Company uses RPI+3% as its primary long term financial performance comparator. In addition to this absolute return performance measure, the Company also uses a range of specialist, sectoral and peer group benchmarks to assess its relative performance.

# Menhaden

Menhaden Resource Efficiency PLC conducts its affairs so that its shares can be recommended by independent financial advisers ("IFAs") to retail private investors. The shares are excluded from the Financial Conduct Authority's ("FCA's") restrictions which apply to non-mainstream investment products because they are shares in a UK-listed investment trust.

### Commentary

During November, the Company's net asset value ('NAV') per share was up 1.4%, the share price was up 9.1%, while the RPI+3% was up 0.8%.

Our public equities portfolio increased 2.1% over the month, increasing our NAV by 1.6%.

Amazon increased 12% in USD, increasing our NAV by 0.6%. Profitability continues to improve driven by higher margins at the Retail business and accelerating growth at AWS. Positively, Chief Executive Officer Andy Jassy said that there is potential to raise margins further in the Retail business and that the cloud business remains supply constrained.

Safran increased 6% in EUR, increasing our NAV by 0.5%. The company upgraded its current fiscal year guidance at its latest quarterly results. Passenger traffic remains strong, whilst the delivery of new aircraft to airlines remains constrained by supply chain and regulatory issues. These dynamics benefit Safran by translating into robust demand for spare parts due to high utilisation rates on the existing CFM engine fleet and low retirements.

Microsoft increased 4% in USD, increasing our NAV by 0.5%. The management team believe that Azure's growth rate will accelerate in the second half of the current fiscal year, as the company's investments in artificial intelligence related infrastructure increasingly start paying off. The cloud business' artificial intelligence revenues were said to be nearing an annual run rate of \$10 billion at the last quarter.

The Company published its Half Year Report to 30 June 2024 on 17 September 2024, within which the Board announced that it proposes to carry out, together with its advisers, a formal review of the options available to it in order to address the issues facing the Company prior to its continuation vote in 2025. Further details are provided in the Chairman's Statement of the Half Year Report which can be found on the Company's website at [www.frostrow.com](http://www.frostrow.com).

### Asset Allocation Breakdown as at 30 November 2024 (% of portfolio)

### Investment Policy

The Company's investment objective is pursued through constructing a conviction-driven portfolio consisting primarily of direct listed and unlisted holdings across different asset classes and geographies. The Company invests, either directly or through external funds, in a portfolio that is comprised predominantly of a combination of listed equities and private equity investments. The flexibility to invest across asset classes affords the Company two main benefits: 1) It enables construction of a portfolio based on an assessment of market cycles; and 2) It enables investment in all opportunities which benefit from the investment theme. It is expected the portfolio will comprise approximately 15 to 30 positions.

The portfolio will be predominantly focused on investments in developed markets, though if opportunities that present an attractive risk and reward profile are available in emerging markets then these may also be pursued. While many of the companies forming the portfolio are headquartered in the UK, USA or Europe, it should be noted that many of those companies are global in nature so their reporting currency may not reflect their actual geographic or currency exposures. Subject to any applicable investment restrictions contained in the Listing Rules from time to time, the Company will not make an investment if it would cause a breach of any of the following limits at the point of investment: 1) no more than 20% of the Company's gross assets may be invested, directly or indirectly through external funds, in the securities of any single entity; and, 2) no more than 20% of the Company's gross assets may be invested in a single external fund.

### Risk Warnings

This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Before investing in the Company, or any other investment product, you should satisfy yourself as to its suitability and the risks involved, and you may wish to consult a financial adviser.

Any return you receive depends on future market performance and is uncertain. The Company does not seek any protection from future market performance so you could lose some or all of your investment. Shares of the Company are bought and sold on the London Stock Exchange. The price you pay or receive, like other listed shares, is determined by supply and demand and may be at a discount or premium to the underlying net asset value of the Company. Usually, at any given time, the price you pay for a share will be higher than the price you could sell it. For further information on the principal risks the Company is exposed to please refer to the Company's Annual Report or Investor Disclosure Document available at [www.menhaden.com](http://www.menhaden.com).

The Company currently deploys leverage using currency forwards. These are designed to partially protect/hedge the NAV from unfavourable movements in foreign exchange rates by reducing the Company's exposure to foreign currencies. The Company can borrow but does not currently.

### Target Market

The Company is suitable for investors seeking an investment that aims to deliver total returns over the longer term (at least five years), is compatible with the needs for retail clients, professional clients and eligible counterparties, and is eligible for all distribution channels.

The Company may not be suitable for investors who are concerned about short-term volatility and performance, have low or no risk tolerance or are looking for capital protection, who are seeking a guaranteed or regular income, or a predictable return profile. The Company does not offer capital protection.

### Value Assessment

Frostrow Capital LLP has conducted an annual Value Assessment on the Company in line with Financial Conduct Authority (FCA) rules set out in the Consumer Duty regulation. The Assessment focuses on the nature of the product, including benefits received and its quality, limitations that are part of the product, expected total costs to clients and target market considerations.

Within this, the assessment considers quality of services, performance of the Company (against both benchmark and peers), total fees (including management fees and entry and exit fees as applicable to the Company), and also considers whether vulnerable consumers are able to receive fair value from the product.

Frostrow Capital LLP concluded that the Company is providing value based on the above assessment.

### Important Information

Menhaden Resource Efficiency PLC (the Company) is a public limited company whose shares are listed on the London Stock Exchange (LSE) and is registered with HMRC as an investment trust.

The Company has an indeterminate life although shareholders consider and vote on the continuation of the Company every five years (the next such vote will be held in 2025).

The Company may, but does not currently, borrow to purchase investments. Borrowing could potentially magnify any gains or losses made by the Company.

This **financial promotion** is issued by Frostrow Capital LLP which is authorised and regulated by the Financial Conduct Authority ("FCA").
